

YOU COULD USE ANOTHER WINDOW INSTALLATION SYSTEM.

IF THERE WAS ONE.

**The first and only complete system
to help you get the job done right.**

The adaptable OSI® WINTeQ™ System was designed to ensure proper replacement window installation. The system delivers the ultimate barrier against air and water infiltration and provides optimal energy efficiency by employing the best practices and principles for installing replacement windows. Best of all, it takes the guesswork out of installation, reduces errors, and eliminates callbacks. For your free copy of the WINTeQ replacement manual and installation video, call 800-624-7767.
