 Adhesives and Sealants

TRUE GREEN. TRUE PERFORMANCE.™

OSI
GreenSeries™

TRUE GREEN:

ENERGY EFFICIENCY

The use of sealants and adhesives help make homes more energy efficient by preventing air and water infiltration. Cracks and gaps allow outdoor elements to penetrate into the home, leading to water damage and causing your heating and cooling system to work overtime and consume more energy. Properly sealed remodel projects deliver:

- Proven energy and utility savings that save homeowners money
- A quality remodel project that professionals and homeowners can be confident and comfortable with for years to come

AIR QUALITY

The entire line of OSI® GreenSeries™ has reduced or eliminated harmful VOC (volatile organic compound) levels allowing both workers and homeowners to breathe easy during and after the remodel. Low VOC products help:

- Lessen air pollution, irritants and odors & help maintain cleaner indoor air quality
- Ensure a cleaner & healthier living environment for homeowners during and after the remodel

TRUE PERFORMANCE:

Working with OSI® GreenSeries™ products, you'll notice the absence of a strong chemical odor. This is because dangerous VOCs have been virtually eliminated.

PRODUCT	VOC EMISSIONS (g/L)			
	Traditional Products	OSI GreenSeries™	LEED Standards	NAHB Standards
Subfloor Adhesive	380	3	50	75
Drywall Adhesive	388	2	50	75
Architectural Sealant	350	5	250	30

WHY I USE OSI® GREENSERIES™ ADHESIVES AND SEALANTS:

- I can trust the OSI® brand
- The OSI® brand delivers Quality and High Performance
- OSI® GreenSeries™ products are GREENGUARD® Children & Schools, Indoor Air Quality certified
- Most OSI® GreenSeries™ products are produced in an ISO 14001 certified facility which utilizes environmentally friendly processes for energy, waste and water management
- All OSI® GreenSeries™ products are made in North America

OSI® GreenSeries™ is a full range of green caulks, sealants and adhesives that deliver high performance results while maximizing energy efficiency and maintaining healthy indoor air quality.

You'll get important benefits when you remodel with OSI® GreenSeries™

OSI® GREENSERIES™ DELIVERS:

- Utility savings – because a properly sealed home uses less energy.
- Better air quality and a safer, healthier home – because OSI® GreenSeries™ emits fewer unhealthy VOCs.

Breathe Easy

**OSI® GreenSeries™. Better for your home.
Better for your family.**
